SUMMARY

AI/ML Developer and Data Science professional with experience in Python, machine learning, Generative AI, RAG, and data analytics. Skilled in developing AI-powered applications, predictive solutions, and data-driven systems using modern AI frameworks, APIs, and cloud technologies. Passionate about building scalable solutions that solve real-world business problems.

SKILLS

Programming & Tools: Python, SQL, GitHub, Jupyter Notebook, Google Colab, VS Code

Machine Learning & AI: Machine Learning, Deep Learning, Generative AI, LLMs, RAG, NLP, CNN, LSTM, Transfer Learning, Predictive Modeling, LangChain, LangGraph, Prompt Engineering, Embeddings, Scikit-learn, TensorFlow, XGBoost

Frameworks, Databases & Development: ChromaDB, FAISS, Sentence Transformers, Flask, FastAPI, Streamlit, PostgreSQL, Odoo 18, Python Models

Cloud & Data Analytics: AWS (EC2, S3, IAM, Lambda, Amplify, VPC), Cloud Deployment, Pandas, NumPy, Data Preprocessing, EDA, Matplotlib, Tableau, Power BI

EXPERIENCE

AI/ML Developer | Bizlem Private Ltd. NaviMumbai — April2026-Current

Plant Maintenance System — Developing maintenance workflows and analytics for work orders, preventive maintenance, and spare parts, with predictive maintenance features for anomaly detection and equipment monitoring.
Master Production Scheduling (MPS) System — Developing a production planning system to manage production orders, capacity planning, resource allocation, and scheduling workflows.
Developing production planning and capacity management features, with interactive Gantt charts and API integration for production scheduling.
Inventory Management System — Developing inventory workflows for stock tracking, GRN, material movements, location management, and dispatch verification.

AWS Cloud Intern, Magic Bus Foundation Thane — September 2024- December 2024

Hands-onexperience with AWS services (EC2, IAM, CI/CD) to build and manage scalable cloud infrastructure.
Improved automation, security, and monitoring of cloud deployments

AI Developer Intern, SmartBridge Educational Services Pvt. Ltd. — March 2024- May 2024

Built and deployed machine learning models using Python frameworks and integrated AI pipelines. Applied industry-grade tools, documentation practices, and completed Google-powered AI externship.

EDUCATION

M.Sc Data Science And Big Data Analytics (9.50) — 2023-2025
B.K. Birla College, Mumbai

B.Sc Information Technology (8.78) — 2020-2023
B.K. Birla College, Mumbai

PERSONAL PROJECTS

AI-Powered News Summarization & Q&A System (RAG)

Python · LLMs · RAG · NLP · Streamlit · Vector Database

- Developed a Retrieval-Augmented Generation (RAG) application to retrieve relevant AI news content, generate concise summaries, and answer user queries using contextual information.
- Implemented document processing, text chunking, embeddings, and semantic retrieval to find relevant context for user questions and generate context-aware responses.
- Built an interactive Streamlit interface for news summarization and question answering, integrating retrieval and LLM-based response generation.

Neural Networks Ahoy: Ship Classification System

Python · CNN · VGG16 · TensorFlow/Keras · Flask · Deep Learning

- Developed a ship image classification model using a pre-trained VGG16 convolutional neural network and transfer learning to identify ship categories from images.
- Applied image preprocessing and model evaluation techniques to support image classification for maritime monitoring use cases.
- Built a Flask web application to enable image uploads and display the model's predicted ship category.

WhatsApp Chat Analyzer

Python · Pandas · Matplotlib · Seaborn · Streamlit

- Developed a chat analysis application to process WhatsApp chat exports and identify messaging patterns, user activity, and engagement trends.
- Created visualizations for message frequency, active users, timelines, and chat statistics.

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services (AWS), October 2024
- AWS re/Start Graduate — Amazon Web Services (AWS), October 2024
- Enterprise Data Science in Practice — IBM, March 2024
- Getting Started with Enterprise-grade AI — IBM, March 2024
- AI for Bharat Hackathon — Certificate of Participation, Hack2Skill, June 2026
